ANTIGUA CENTER TABLE

The circular shapes and round design of this elementary center table is inspired by the mountains surrounding the Guatemalan coffee plantation in Antigua City. The height of the mountains reaching the skies and emerging from the plains where some of the world's best coffee beans are grown inspired the setting of the modular pieces for this item. With a walnut circular body and a carrara marble top, this center table besides presenting a versatile decoration assemble has also a fine inox dark bronze strip that provides it with a modern appeal.

With a subtle space for storage, the three modular pieces that can fit into every design aesthetic and be set in numerous combinations, providing an exciting and energetic vibe each time.

WINNOW TABLE LAMP

This table lamp takes its name from the winnowingmethod, an ancient technique of separating grain from the straw. Its body is composed of small lacquer wood tubes, representing the straw, and the abat jour shade emerges from the base with a light tapioca fabric, separating distinctively from its rigid body. By mixing a more classic approach to the shade with a contemporary design to its body, this table lamp will brighten every surface and interior.
